Title

Appropriately prescribe therapies (drugs, fluids, blood products oxygen) tail

t T i

individual confidence and experience with that drug or product

- Prescribe as directed by a senior team member, taking responsibility for completion of the order to ensure it is both accurate and appropriate in the context of the patient

Perform this activity in multiple settings, including inpatient and ambulatory (or community) care settings or in emergency departments and in the care of different populations for example children, adults and elderly.

Prevocational doctor to complete this section

Description

This activity requires the ability to, where appropriate or possible complete some or all of the following list. The prevocational doctor is to tick the task descriptions that are relevant to this assessment:

1. obtain and interpret medication histories
2. respond to requests from team members to prescribe medications
3. consider whether a prescription is appropriate
